

2024

DIMENSIONS [MM]

The armchair is born from the union of two continuous lines, which in addition to acting as legs, have the task of supporting the upholstered structure. The combination of steel and leather once again proves successful, creating a suave aesthetic harmony, particularly in this more elegant 'total black' version.

Created for a friend.

Handcrafted piece made with the utmost attention to detail respecting materials, people, places.

Our products are designed and manufactured in the town of San Giovanni Rotondo, Italy.
